Minutes of the 9th Meeting of Apex Committee of Atal Mission for Rejuvenation and Urban Transformation (AMRUT) held on 026.05.2016.

The List of Participants is at Annex- I

At the outset the Mission Director welcomed Chairman and all the members of the Apex Committee for the first meeting in the new financial year. He apprised the Committee about the timeline and process followed for state to prepare and submit their SAAP for 2016-17.

Secretary (UD), in his opening remarks, emphasized the approach followed by AMRUT where the Central Government approves the Annual Plan and the State Government is empowered to prioritize, implement and monitor individual projects. He hoped that this will result in faster execution of the projects and improved ownership of the projects at the State level.

Secretary (UD) also expressed the need of going a step further in planning for the entire Mission period and suggested that the Mission Directorate may communicate the estimated CA allocation for the entire Mission period to all States. He suggested that based on this allocation, the States may prepare their Plan for the Mission period in advance and get it approved from the Apex Committee. The Secretary suggested that the States may submit their third and final Plan this year itself for the balance CA after accounting for the SAAP of 2016-17. This will ensure that the Annual Plan is ready for implementation at the beginning of the next year resulting in faster implementation, timely completion without any time or cost over-runs. The releases will be subject to proper utilization and budget available with the Ministry.

The Secretary noted that the grants to the ULBs from the 14th Finance Commission are to the tune of about Rs.87,000 crores. While it is the prerogative of the ULBs to plan expenditure out of the grant made available to them, the States should not absolve the responsibility to see that the money is well spent. The money should be spent judiciously after proper planning and should be dovetailed with the Missions and priority programmes so that the programmes are fully implemented leading to benefits to the citizens.

The Secretary emphasized the importance of e-governance in urban sector and its positive impact on delivery of citizen services. He suggested that the important services like payment of taxes and bills, issue of certificates of deaths and births should be made online in all ULBs irrespective of their size. For the purpose of improving the process of grant of construction permission and planned development he asked the States to adopt the Model Building Bye-laws issued by the Ministry. This

will lead to integration of all new features like rain water harvesting, solar energy, concepts of green buildings and online approval of building permissions into the State bye-laws. He informed that the online approval of building plans has already been implemented in Delhi and Mumbai.

He also emphasized that the States should regularly review the implementation of reforms. He also mentioned that the first anniversary of the launch of the two Missions, namely, AMRUT and Smart Cities is on 25th June 2016 and the States should put in concerted efforts to see that as many projects under the Missions are grounded as possible on that date.

The Secretary then requested the Mission Director to take up the agenda for the day. The Mission Director gave an outline of the agenda for the day and the plan for the proceedings and requested the Principle Secretary (UD) Rajasthan to make the presentation on their SAAP.

Comments of NITI Aayog:

The Sr. Adviser, noted the slow progress on implementation of SAAP of 2015-16 and requested the State Government to expedite the process. She also hoped that there are no land issues in the projects for sorting out. She also requested the State Government to take intermediate steps immediately for implementation of 2016-17 SAAP.

She observed that there are 29 Mission Cities in the State Government and desired to know how much water will be recycled in the Mission Cities and details of the projects being implemented in the State under the PPP mode in water and sanitation sectors.

The State Government responded that policy for waste water recycling is under consideration with the State Government and that there are no projects under consideration for taking up under PPP mode. However, they will explore the possibility.

Comments of Department of Expenditure:

The Director suggested that the State Government may consider evaluation of JnNURM projects, identification of places for disposal of solid waste and identification of alternate sources of water. He also suggested that the State may integrate the drainage and sewerage plans for the cities. He emphasised that the State Mission Directorate should comply with the provisions of the Mission Guidelines regarding execution of projects by parastatal agencies.

The State Government responded that they have obtained the Resolutions of the ULBs wherever the projects are proposed to be executed by parastatal agencies.

Comments of IFD:

The JS &FA stated that the observations of IFD have already been communicated on file and also that the State should ensure that there is no duplication of projects or parking of funds.

Comments of JS (SBM):

Chairperson:

The State Annual Action Plan of Meghalaya was approved subject to above comments and observations and common conditions mentioned by the National Mission Director and recorded later in the Minutes.

Common Conditions for all SAAPs

- i. The State/UT Govt shall ensure that the works are executed through the ULBs. In case the works are to be executed through para-statal agencies, the process and conditions specified in the Mission Guidelines in this regard shall be strictly followed.
- ii. State Govt. needs to clearly indicate about the availability of Land and other clearances. No projects should be approved by State Level Technical Committee (SLTC) which do not have land available and no work order should be issued till receipt of all clearances from all concerned departments/authorities.
- iii. Re-cycling/re-use of waste water and reduction of NRW should be given focus while approving DPRs.

- iv. The State Govt. should ensure convergence between the AMRUT, Smart Cities, SBM, other related Schemes and Externally aided projects according to Mission Guidelines.
- v. Estimates in the SAAP should be based on prevailing official schedule of rates and not on market rates.
- vi. Implementation of reforms will make States/UTs eligible for annual incentive. In order to get incentives reforms should be broken up into activities with timelines and sent to TCPO by the State Mission Director.
- vii. The approvals towards Urban Mobility shall not be used for procurement of buses.
- viii. No incomplete JnNURM projects should be taken up in AMRUT and the SLTC will ensure adherence to the Guidelines.
- ix. In case, the appraised cost of projects in previous SAAP exceeds the approved SAAP size for the year, the SAAP may be limited to approved SAAP size by removing some projects. Such projects may either be taken up in the next of SAAP or taken up by the State Govt. through convergence with other schemes or borne by the State/UT Government.
